

A-Type

Celestion guitar speakers have been an important part of British guitar tone since the birth of Rock & Roll. Traditionally, they're known for lively and vocal midrange character with plenty of sparkle and chime, which turns into an exciting growl when overdriven, often compressing when pushed hard.

Inspired by our favourite modern American tones, the A-Type is a different kind of guitar speaker from Celestion. Of course, it still has the musical and revealing three-dimensional quality that is the heart and soul of a Celestion guitar speaker, however it features a more laid-back midrange which reveals body and complexity in the upper register, accompanied by full and rounded low frequencies.

The A-Type conveys a fluid, even performance with an increased headroom threshold that allows your amp's tone to shine through. Clean players will love the smooth articulation; for rockers the brooding, powerful low end threatens thunder that's only a heavy riff away!

8 Frequency Response

General Specifications

Nominal diameter	12",305mm
Power rating	50W
Nominal impedance	8Ω;16Ω;
Sensitivity	98dB
Chassis type	Pressed steel
Voice coil diameter	1.75",44.5mm
Voice coil material	Round copper
Magnet type	Ceramic
Magnet weight	35oz,0.99kg
Frequency range	75-5000Hz
Resonance frequency, Fs	75Hz
DC resistance, Re	6.2Ω;12.7Ω;

Mounting Information

Cut-out diameter	11.1",283mm
Diameter	12.2",309mm
Magnet structure diameter	5.7", 145mm
Mounting slot PCD	11.7",297mm
Number of mounting slots	8
Overall depth	5.1",130mm
Unit weight	7.7lb,3.5kg
